- Python
- JavaScript

DATABASES

- MySQL, SQL
- SQLite
- Postgres

DEVELOPMENT TOOLS

- Eclipse
- IntelliJ IDEA
- PyCharm
- Atom

TECHNOLOGY PLATFORM

- Django
- Spring Boot
- Rest Services, Rest APIs
- AWS
- Servlet

APPLICATION SERVERS

- Apache Tomcat
- Unicorn

WEB TECHNOLOGIES

- HTML
- CSS
- Bootstrap

EXPERIENCE

DEVELOPER, INNOV8POD

June 2022 – Present

Innov8POD is a start-up digital transformation company located in Singapore that provide 'Tech Product Management Services' to other businesses. I currently work there as a Software Developer (Remotely). But I started as a student attending a program (Innov8 Incubator Program). We work in Agile methodology to transform business ideas/problems by brainstorming the idea or problem into a solution based on client's requirements and expectations. And we propose the solution we came up with to the client.

JAVA TRAINING, INNOV8POD

September 28th, 2022 – October 27th, 2022

Starting in September I attended an online Java training organized by INNOV8POD to upskill its developer's skillset in Java where we are covering Java from scratch starting with the Basics of Java, Java Servlet, Apache Tomcat and Spring Boot framework, and also creating and working with Microservices and Postman with MySQL database.

TECH-LEAD, INNOV8 INCUBATOR PROGRAM

January 2022 – April 2022

The program was about learning the Agile way of working. And I had a role of Tech Lead. As the tech lead, I led a pod of 6 team members to evaluate the needs of store managers in Rwanda, conducted 25 interviews and collaborated with UX lead to design a prototype. As the result, the proposed solution was validated and is on the roadmap to be implemented as the MVP application.

SOFTWARE DEVELOPER (INTERNSHIP), A.S.S PARTNERS-LTD

September 2021 – November 2021

Ahadi Solution and Services Partners-Ltd is an Information Technology company located in Kigali, Rwanda that provide 'IT Services' to other businesses.

I did spend some time there as a Software Developer Intern. For the time I spent there, I worked on so many things. Some of them are, stand-up meeting like every day. And I contribute in so many things too, Updating the ASS Partner's Database, Updating and Testing functionality of the existing systems. And I was in a Team who had a huge project of developing a Software API based application for Web, Android and IOS.

FULLSTACK DEVELOPER, UNICA TECH

December 2021 – Present (Part-time)

As a full stack developer at UNICA Tech, I use HTML, CSS, Bootstrap and some JavaScript for the front side but to the back end is Django and Django rest framework (API), with MySQL or Postgres database. Django is a framework of Python that used to develop or build scalable, flexible, dynamic and fast web application.

I worked on developing more than two e-commerce applications and three business websites and as well as integration of APIs into systems.

EDUCATION

BACHELOR'S DEGREE, INES-RUHENGERI

September 2018 - March 2022

Bachelor's degree in computer science option of software engineering.

HIGH SCHOOL CERTIFICATE, ST MATHIEU BUSASAMANA

January 2017 - December 2017

A high school certificate in computer science.

HIGH SCHOOL DIPLOMA, ST MATHIEU BUSASAMANA

January 2015 - December 2017

A high school diploma in Mathematics, Chemistry, and Biology.

LANGUAGES

- English (Professional working proficiency)
- French (Limited proficiency)
- Kinyarwanda (Mother tongue)
